

## Press Release

---

### Precision Walls Hires Vipperman as Project Manager

Greer, SC (February 9, 2012) – Precision Walls, Inc., one of the Southeast’s leading specialty contractors, is pleased to announce that Danny Vipperman has joined the team as Project Manager. He brings with him 12 years of experience in the commercial construction industry and 7 years of project management experience in the acoustical ceiling & drywall industry in the upstate area of South Carolina.

In his new role, Vipperman will be responsible for managing and supervising the construction and delivery of multiple new projects from the beginning to end resulting in successful and timely project completion. He will also ensure that construction occurs according to schedule and within budgetary guidelines without sacrificing quality.

#### **About Precision Walls:**

As one of the Southeast's largest specialty contractors, Precision Walls has provided top quality service to our customers for over 40 years. Whether you are adding a door in your office or constructing a multi-story office building, Precision Walls has the solution. Our products and services include commercial drywall, acoustical ceilings, operable & accordion partitions, temporary and demountable partitions, light gauge framing & trusses, and EIFS. For more information on Precision Walls, visit [www.precisionwalls.com](http://www.precisionwalls.com).
