Precision Walls, Inc. Announces New Pharma/Biotech Division

CARY, N.C. (April 11, 2011) – Precision Walls, Inc., one of the Southeast’s leading specialty contractors, recently launched a new division that will be completely dedicated to pharmaceutical and biotech projects. The Pharma/Biotech Division will offer a full range of Division 9 and Division 10 construction services to provide a single source for these closely related aspects of a project. Precision Walls understands the complexity and needs of these industries and has been selected again and again as the finishes and specialty contractor for a number of prominent pharmaceutical and biotech projects in the Southeast. John Christine has rejoined Precision Walls as the Account Manager to spearhead the new division. John brings more than 40 years of industry experience to the new position. He has managed projects both as a general contractor and a subcontractor for many pharmaceutical and biotech companies in the Triangle and surrounding areas.

About Precision Walls:

Precision Walls, Inc. is a family owned and operated specialty contractor headquartered in Cary, North Carolina with offices located in NC, SC and TN. Precision Walls started from its humble beginnings in 1964 to become one of the nation’s premier specialty contractors serving clients throughout the Southeastern United States. It is recognized by “ENR” as one of the Top 10 walls and ceiling contractors in the United States. The company specializes in light gauge framing & trusses, commercial drywall, moveable & operable partitions, acoustical ceilings and EIFS.
