

SUPERWALL®

Movable Partitions

Cleaning Procedures for Vinyl Wall Coverings:

Common dirt and stains may be removed from our decorative laminates by rubbing lightly with a moistened cloth, sponge or stiff bristle brush using mild soap, detergent or non-abrasive cleanser. It is important that clean water be used on a constant basis and that the material be towel dried.

Caution! Strong organic solvents (such as Ketones) and harsh abrasive cleaners are not recommended. These Materials will cause dulling, discoloration or softening of the vinyl, thus causing permanent damage.

Cleaning Procedures for Aluminum Trim:

Common dirt can be removed from the aluminum trim by rubbing lightly with a lightly moistened cloth using a mild soap/detergent or non-abrasive cleaner.

Caution! Some cleaning solutions will cause dulling or discoloration thus causing permanent damage to the finish of the aluminum trim.
